

Enterprise SEO Gap Analysis + Execution Strategy

Driving a **35% Organic Visibility Lift** across four competing business units

⚠ The client's organic visibility had been **flat for 18 months** despite consistent content investment — four business units were competing for overlapping keywords, creating cannibalization and diluting domain authority.

The Approach

01

Master Keyword Taxonomy

Mapped each business unit to distinct keyword clusters — eliminated **200+ cannibalization conflicts**.

02

Competitor Gap Analysis

Identified **400+ ranking opportunities** the client had previously ignored.

03

Custom Prioritization Framework

Scored opportunities by search volume, difficulty, business relevance, and conversion potential.

04

Content Execution

Partnered with the content agency to execute **60+ optimizations** and new content pieces.

05

Ongoing Tracking

Set up Search Console + Moz dashboards to monitor visibility, rankings, and technical health **weekly**.
